

success | story

Use the products everyday, let them become part of your lifestyle and you will see amazing results.

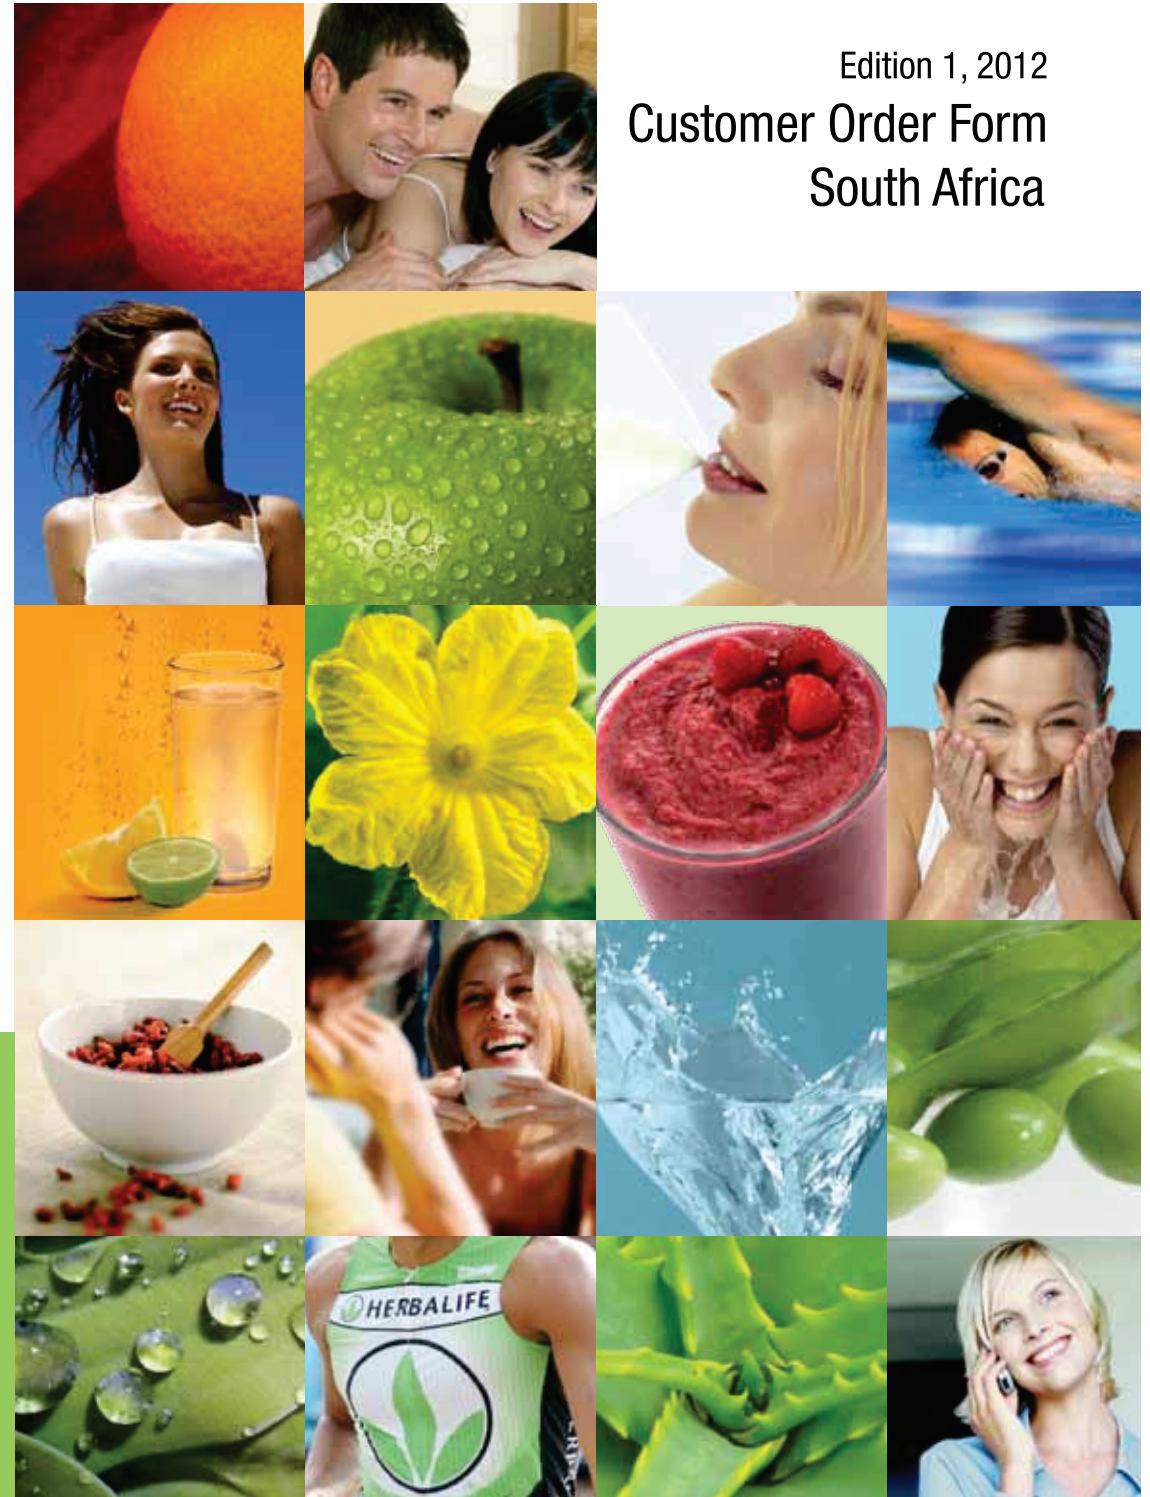

Susara Prinsloo, Bloemfontein

"Susara Prinsloo had led a busy life working in marketing within corporate companies and had started to feel like she was 'living to work, not working to live'. She was unhappy, in poor health and didn't feel bright about the future.

Susara had fluctuating weight which is what initially drew her to Herbalife; a friend introduced her to the products which helped her to lose weight and drop a couple of dress sizes. "After such great product results, I was intrigued about the business opportunity...

I attended a Success Training Seminar (STS) and started following the step-bystep marketing plan. Within 18 months I qualified to Global Expansion Team. Being self-employed, through Herbalife, has given me a lifestyle of traveling to four international training events in London, Barcelona, Atlanta and Athens—so far!

Thanks to the amazing marketing plan, which offers an equal opportunity to everyone, my team members are pursuing goals of their own. It is such a joy to share in other people's lives and dreams. I use the products everyday and they have become part of my lifestyle with amazing results."
